

CROSS COUNTRY

Between the halves of the football game the Wakefield Cross Country Squad will engage in an intrasquad meet for your enjoyment. The squad has been divided into three equally matched teams for this first competitive trial. In order to assist you in your understanding of cross country the following points are listed:

1. The course that will be followed will take the runner once around the track, then through the woods, across the boys' athletic field following the fence behind the tennis courts, back onto the track for another lap, then around the girls' athletic field, finishing up in front of the home stands on the track.
2. Scoring is based upon the following system: each runner scores the number of points of the position in which he finishes (winner scores one point, second place scores two points, third place scores three points and so on). The team score is computed by adding the scores of the first five place finishers for that team. Thus, it is possible to have the individual winner of the meet but not to win the meet. The team with the LOWEST score wins the meet.
3. Teams for this afternoon's competition:

Green
George Cochran(Sr)*
Joe Grammer(Jr)
Ernie Betts(Sr)
Bob Gammon(Soph)
Howard Mahoney(Soph)
Bill Ellis(Soph)
Mike Patterson(Jr)
